Stockyards Have 5000 Head Arizona Owners Seek to From Arizona Ranges; Importations Decrease.

The three leading stock yards of Et

Paso are at present caring for a transient herd of cattle from Arizona, approximating 5000 head. The cattle me part of a large movement from the ranges in Arizona. The quarantme against the "scables" has been eliminated upon the western stock and local stockmen are filling up gaps in their herds with the faited Arizona stock. Cartle Importations Decreased. Instead of the shipments from Mexico isto the United States being ausmonted by uncertain conditions that exist along the border, there has been a notable full. The custom house reports for the first half of October, terminating with October 18: 320 head imported and entered and 1400 imported and entered and local cattle marks; that the uncertain diplomatic conditions between the United States and the Villa faction has not interferred with the shipment of cattle from the local Cattle from the Terrams properties in Northern Macked. During the past month fully 800c head on the local cattle from the Terrams properties in Northern Macked. The annual shifting is 0m.

still some 20,000 head on the Terrama france, it is said.

Annual Shifting is On.

'The annual shifting of carrie from the summer to the winter ranges,' said Lee H. Crews, of the El Paso Bank & Trust company, has begun and west Texas cattlemen are in the market for fills. I can't say that the shidness is to the packing markets are very keen. The general tendency is to hold, as the price for meat is advancing all of the time, and the sattlemen are the quickest to realize it."

1. E Booker to commenting upon the exitte market stated that there was nothing sky rockety about it; that the shipments were normal, and that most of the cattle from the Arisons ranges were being handled in New Mexico.

Kraft & Madero, large dealers in cattle from Mexico, state that they have been inactive so far as importations are converned for the past week.

Remedy is Home-Made

Enally Prepared in a Few Minwies. Chesp but Unequaled

Some people are constantly annoved from one year's end to the other with a persistant bronchial cough, which is wholly unnecessary. Here is a home-made remedy that gets right at the cause and will make you wonder what became of it. Get 2½ ounces Pinex (50 cents worth) from any druggist, pour into a pint bottle sind fill the bottle with plain granulated sugar syrup. Start taking it at once. Gradually but surely you will notice the phiegm this out and then disappear altogether, thus ending a cough that you never thought would end. It also foosens the dry, hourse or tight cough and beals the inflammation in a painful cough with remarkable rapidity. Ordinary coughs are conquered by it in 24 hours or less. Nothing better for bronchitis, winter coughs and bronchial asthma.

This Pinex and Sugar Strum mixture makes a full pint—enough to last a family a long time—at a cost of only 54 cents. Keeps perfectly and tastes pleasant. Easily prepared. Full directions with Pinex.

In the east window of his San Antonio street store Mr. Feldman has arranged an excellent display of the Edison instrument. One of the newest

mon instrument. One of the newest models is shown in mahogany finish and the one which Mr. Edison selected as his most perfect product to be used at the Panama-Pacific exposition on Edison day. Thursday.

A beautiful oil painting of Thomas A. Edison, framed in a heavy, old gold frame, is bung on the wall of the display window and the Edison records are arranged as a freize at the bottom of the window. On a soft panel of wine colored veivet Mr. Feldman has shown the famous diamond point, which he says is the soul of the Edison instruments. It is shown magnified with a large reading glass and may be seen clearly.

Panels explaining Edison week and inviting the public to call for a pamphlet telling about the Edison creation are also placed advantageously in the window.
